STATINTL

MEMORANDUM FOR ACTION

25X1A

TO: [REDACTED] C/CA

SUBJECT: NTS

1. Sherwood Harris, free-lance writer who was known to this office when he was with the Washington bureau of the SATURDAY EVENING POST, called to see me today. He has an assignment to do a story on NTS for "This Week."
2. Harris' article will consist of about 1500 words. He asked if we have any views or anything regarding NTS that he might consider using. Harris said that he has talked with the local representative of the NTS, Constantine Boldyreff, of Arlington, Virginia. He is also securing some information from abroad.
3. Harris claims to be worried about a group in the NTS who served with the Germans after the German invasion of Russia in World War II. He said there is no doubt that NTS is a worry to the Soviet Union, but he finds some people worried that there may be infiltration through this emigre group that went over to the Germans during the invasion of Russia.
4. Harris has two more weeks to prepare his article. Is there any interest by CA in seeing Harris or furnishing me with any data to pass on to him without attribution to the Agency, or should we just tell him that we are unable to give him any assistance?

Stanley J. Grogan
Assistant to the Director
